Hi all

If you do not have any items on these charts, or updates this cycle, please let Ellen and me know via email at your earliest convenience. (I'm putting this first because some folks are doing this, but others are not.)

If you do have updates please send them to Ellen and me by Noon, Monday December 11, 2017.

Particularly because of Chris's direction starting last month, please feel free to not make editorial changes or other non-substantive updates. Please do provide an update if a significant action has happened or a target date has changed.

Pay close attention to November, December and January action items and edit accordingly. Due to time constraints I did not highlight those items this month.

Also, please note that the red/green designation is going away, but that the update process is not.

If you have updates please rename the document by replacing "master" with your first or last name, and send the document(s) to Ellen and me at your earliest convenience.

As always, thanks for your attention to these reports.

Chuck
